## INTRODUCTION.

This directory of foreign importers is a revised edition of that published in 1911, and now out of print. The Canadian Trade Officials in the various parts of the world were requested to furnish the Department with the names of merchants who are interested or likely to become interested in Canadian exports. It was not desired that they should send in merely the names of merchants available in any business directory, but only those whose names were on file in their office, or could be secured after reasonable inquiry.

It must be understood that the Department does not guarantee the financial standing of any of the firms mentioned in the directory. It may be assumed that these firms are open to form business connections.

It has been thought convenient to add other matter of interest. There has, therefore, been inserted a list of the principal oversea mail and cargo steamship services, together with data respecting the Customs requirements of foreign countries and British possessions in regard to invoicing. It is hoped that this additional information may be of assistance to Canadian producers in their efforts to extend foreign trade.

Supplemental lists of foreign importers, together with other matter bearing on Canadian export will appear, as received, from time to time in the Weekly Report, and may be added to this publication.

R. GRIGG,  
*Commissioner of Commerce.*

## COMMERCIAL INTELLIGENCE SERVICE.

The following is a list of officials of the Canadian Commercial Intelligence Service. The Department of Trade and Commerce invites correspondence from Canadian exporters or importers upon all trade matters. Canadian Trade Commissioners and Commercial Agents should be kept supplied with catalogues, price lists, discount rates, etc., and the names and addresses of trade representatives by Canadian exporters. Catalogues should state whether prices are at factory point, f.o.b. at port of shipment, or, which is preferable, c.i.f. at foreign port.

## ENLARGED TRADE INTELLIGENCE.

Under the arrangement made by the Minister of Trade and Commerce with Sir Edward Grey in July, 1912, the Department is able to present the following list of the more important British Consulates whose officers have been instructed by the Foreign Office to answer inquiries from and give information to Canadians who wish to consult them in reference to trade matters.

In view of the transfer of British Consuls from and to various Consulates, and the occasional retirement of those officers, it has been considered desirable to give the address of the Consulate and omit the names of the Consuls.

## COINAGE, WEIGHTS AND MEASURES.

Data respecting the coinage, weights and measures, with their Canadian equivalents, of the principal foreign countries and British possessions with which Canada carries on trade, are given in the table appended herewith and it is hoped that this information may be of assistance to Canadian exporters and may enable them to avail themselves more readily of foreign trade returns, tariffs, etc. Particulars are given for those countries only from which lists of importers have been received and are included in this publication or those from which similar lists may be expected in the near future and which will be inserted in the Weekly Report when received.

For similar particulars with regard to other countries a reference may be made to Part VII of the annual report of the Department of Trade and Commerce.

In many countries the Metric system of weights and measures has been adopted. A separate table of Canadian equivalents of these is given in order to avoid repetition, the word 'Metric' being used in the general table in each case where the system is in vogue, as indicating a reference to the appended tables.

NOTE.—The average value of the Haikwan Tael for 1909 was 65 cents; 1909, 66 cents; 1910, 69 cents; 1911, 65 cents, and for 1912, 74 cents. Catty = 1.3 lbs. Picul = 133.3 lbs. Gallon and ton same as Canada.

\* Old weights and measures sometimes used. † The values in Chinese Imperial Customs Returns are always given in Haikwan taels, which are relatively in value equal to about 1.113 Shanghai taels. The tael is in reality not a standard of value (there is no such coin), but of weight, and when used in the sense of a value it only represents its weight in gold or silver, as the case may be, the real difficulty is to establish its exact equivalent in grains. Authorities differ greatly, as also does the practice in different sections of China. The Chinese are far from being inexact, and the probability is that there exists a standard, and a further probability that it is equal to 10 Japanese mommes, or 579.72 grains, which figures have been used in computing the value as above. It will be observed, however, that these figures fall short about 3.61 grains from the weight usual (say 1½ oz. per tael) in dealing with the weights, other than those of gold and silver. † This is long measure. Cloth measure is 25% greater in length than long measure. Therefore, by cloth measure, 1 sun = 1.4916 in. 1 shaku = 14.916 in. and 1 jo = 149.16 in.

## OVER-SEA STEAMSHIP SERVICES.

A list of the principal steamship services sailing from Canadian to foreign ports has been compiled from information available to the Department. The name of the line, the ports between which the service or services are maintained, and the address of the principal Canadian office are published herewith for the guidance of Canadian manufacturers and exporters.

#### FOODSTUFF REQUIREMENTS.

In the case of foodstuffs there are other formalities to be complied with at the port of delivery. The agent clearing the consignment must present a request that the Argentine authorities should examine the goods as to quality; according to the result of this analysis the goods will be passed for clearance or otherwise.

### AUSTRALIA.

#### CUSTOMS VALUATION.

The following statement shows the requirements of the Australian Customs in connection with the question of the value for duty of goods liable to *ad valorem* rates:—

Section 154 (a) of the Customs Act, 1901, provides that “when any duty is imposed according to value, the value shall be taken to be the fair market value of the goods in the principal markets of the country whence the same were exported in the usual and ordinary commercial acceptance of the term and free on board at the port of export in such country and a further addition of ten per cent on such market value.”

In assessing the free on board value of goods subject to *ad valorem* duty in terms of the above quoted section of the Customs Act, 1901, the following charges are included, viz.:—

#### CHARGES INCLUDED IN VALUE FOR DUTY.

Inland carriage.—(a) When the goods are shipped from the country where purchased—the whole inland carriage. (b) When the goods are bought in one country and shipped from a contiguous country (e.g., bought in Austria, shipped from Germany)—inland freight to the frontier of the country in which the goods are purchased.

Coastal freight (*i.e.*, when goods are shipped from one port to another port in the same country but are not actually consigned to Australia from the first port), and other charges (including lighterage) incurred in conveying the goods to, and placing them on board, the exporting vessel.

Canal dues (*i.e.*, when canal dues form portion of inland freight charge to the port of shipment).

Cost of labour and materials (except outside packages) used in packing, including flock,\* kapok, straw, and other inside packing.

Insurance to port of shipment.

Inland revenue duty, only when the goods bear Inland Revenue duty stamps affixed to them in the country of export.

Royalties.

NOTE.—When flock, kapok, straw, or horse-hair packing is separately invoiced and has a commercial value of its own after unpacking in Australia, such value is not included in the value for duty, and the materials mentioned are dealt with under their appropriate tariff headings.

And the following are excluded, viz.:—

#### CHARGES EXCLUDED FROM VALUE FOR DUTY.

Outside packages (including zinc linings and tarred paper) in which goods are ordinarily imported; agents' charges; bank exchange; buying or indent commission.

being a charge made to the importer by the buying or indent agent for services rendered, and not an allowance made by the manufacturer to the agent; brokerage; dock dues; export duty; inspection fees; insurance—oversea; interest; postage and petites; sea freight—oversea; stamp duty on bills of lading.

In all cases import duty is chargeable in Australia on the net price at which similar quantities of the goods could be bought by any cash purchaser for home consumption in the country of export, plus the charges enumerated above as included in the value for duty and plus the statutory ten per cent referred to above. Any special discounts allowed, or reduced prices charged, to branch houses or to agents purely by reason of agency existing, and any discounts or reductions in price allowed for export and not for home consumption, are therefore not recognized by the Department in determining the value for duty.

#### STATUTORY DECLARATION BY EXPORTER.

In cases where questions arise as to whether invoice values of goods imported into Australia represent the home consumption value in country of export, exporters are required to furnish evidence in the form of statutory declaration (draft attached) if the facts admit of such declaration being made; and also three certified copies of invoices to purchasers for home consumption in country of export (not being agents or representatives of the seller); and home consumption price lists and discount sheets.

I, ..... (manufacturer or exporter), of  
..... hereby declare:—

1. That the value specified in invoice\* dated..... on account of goods consigned to.....  
of..... were the fair market values of the goods at the time of shipment in the principal markets of this country, and represent their value free on board at the port of export in such country.

If desired to declare the prescribed particulars with regard to all invoices forwarded between specified dates to a consignee, paragraph 1 may be altered accordingly.

2. That the price of the goods stated in the said invoice (or invoices) is the usual and ordinary price for goods of the same kind and quality at the time of shipment in this country, and that the discounts shown are *bonâ fide* deductions actually made from the price paid or to be paid by the purchaser, and further that the said prices are not less and the said discounts are not greater than those respectively charged and allowed to cash purchasers of similar quantities of the goods for use or consumption in this country.

3. That all charges in connection with the goods specified in the said invoice (or invoices) correctly represent expenses actually incurred or disbursements made on the several accounts.

4. That the description and the values of the goods in the said invoice (or invoices) are true in every particular.

5. And I make this solemn declaration conscientiously believing the same to be true, and by virtue of the provisions of the Statutory Declarations Act of 1835. (See note.)

NOTE.—The wording of paragraph 5 is in accordance with the law of Great Britain. For declarations not made in Great Britain the wording should be varied to accord with the law of the country where the declaration is made.

Declarations, unless in statutory form, will not be accepted.

DECLARATION AS TO VALUES.

Where exporters show on their invoices two columns, one showing the price actually charged for the goods and the other showing the home consumption values in country of export, a declaration as per draft attached should appear on the invoice.

I,.....being a principal officer of....., the manufacturers of the goods specified in this invoice do hereby declare that the values and discounts shown in the separate column headed "Domestic Prices in Canada," on the within invoice, correctly represent the fair market value at factory, exclusive of outside casing, at the date of shipment, for goods of the same kind and quality and in similar quantities, as and when sold for home consumption in Canada.

EVIDENCE AS TO HOME CONSUMPTION VALUES.

Subject to the Collector's right to challenge at any time the accuracy of the values on which duty is paid, declarations in the following form on invoices from manufacturers may be accepted when so tendered as evidence of the proper basis of value for duty:—

I, the undersigned, do hereby certify as follows:—

(1) That I am the (a).....

exporter of the goods in the within invoice mentioned or described;

(2) That the said invoice is in all respects correct and true;

(3) That the said invoice contains a true and full statement showing the price actually paid or to be paid for the said goods, the actual quantity thereof, and all charges thereon;

(4) That the said invoice also exhibits the fair market value of the said goods at the time and place of their direct exportation to Australia and as when sold at the same time and place in like quantity and condition for home consumption, in the principal markets of the country whence exported directly to Australia, without any discount or deduction on account of any drawback or bounty, or on account of any royalty actually payable thereon or payable thereon when sold for home consumption but not payable when exported, or on account of the exportation thereof or for any special consideration whatever;

(5) That no different invoice of the goods mentioned in the said invoice has been or will be furnished to anyone; and

(6) That no arrangement or understanding affecting the purchase price of the said goods has been or will be made or entered into between the said exporter and purchaser or by anyone on behalf of either of them, either by way of discount, rebate, salary, compensation, or in any manner whatsoever other than as shown in the said invoice.

## COMPONENT PARTS OF MOTOR CARS.

(Value for Duty.)

In connection with the importation of motor cars, duty is payable on the home consumption value in the country of export on *each part* when sold separately, notwithstanding that such parts are imported into Australia in their assembled condition, *i.e.*, as complete motor cars.

In order that the correct basis of value for duty may be arrived at, it has been decided that:—

(1) Each invoice for motor cars shall set out the following particulars: (a) The price paid or to be paid by the Australian purchaser for the complete car. (b) The gross selling price for the complete car for home consumption in the country of export, less the discount allowed to home consumption purchasers. (c) The net prices ordinarily charged for the separate parts when sold separately for home consumption in the country of export, such separate parts and values to be enumerated as follows: *Chassis* (including painting) and wheels, but not tires, dash, spare parts, or accessories; *body*, including any extra charge for fore doors or high doors, or scuttle dash (when supplied) and including the following parts, viz.: Mudguards and footboards (including splashguards), brackets and well for spare wheel, dashboard, lamp brackets, hood irons, luggage grids or rails, foot or arm rests, tool box; *tires* (if any), showing size, brand and weight; *lamps*; *generator* (gas); *tank* (gas); *horn*; *windscreen*; *top* (canopy or hood); *spare wheel and cover*; *carpets or mats*; *tools* (specify articles and values); any other parts or accessories (specify articles and value).

(2) When a chassis—without body—is shipped to Australia, the invoice shall show the following particulars: (a) The price paid, or to be paid, by the Australian purchaser of the chassis. (b) The value as and when sold for home consumption in the country of export of—*Chassis* (including wheels, but not tires); *tires* (if any), showing size, brand and weight; *mudguards* and *footboards* (including splashboards and brackets); *dashboard*; *lamps*; *lamp brackets*; any extra parts and articles comprising tool outfit, to be specified separately, with values.

(3) A declaration in the following terms shall be made (in a personal capacity) by the manufacturer (or supplier), or by some person duly authorized on his behalf:—

I....., am the manufacturer or (supplier), (or am duly authorized to make this declaration on behalf of the manufacturer or supplier) of the goods described in this invoice, and I do hereby declare that the net price charged to the Australian purchaser for the complete car is not less (*except where otherwise specially indicated herein*) than the net price charged to cash purchasers of similar complete cars for home use in this country; and I further declare that the net prices shown herein for the separate parts and accessories are not less than the net prices which are or which would be charged for such parts and accessories if sold separately for home consumption in this country.

## REGULATIONS AS TO SPIRITS.

Collectors are instructed that in order to satisfy themselves under the provisions of Section 11 of the Spirits Act they must on and after the first of January, 1912, demand in connection with all spirits (other than those specially exempted) arriving in Australia, a certificate from a Government Excise or Customs officer of the country of export to the effect that the spirit (or in the case of a blend, the youngest spirit therein) has been matured in wood for a period of not less than two years.

Failing the production of such a certificate, storage in wood in Australia for the period necessary to ensure that all the spirit has been two years in wood will be insisted upon before delivery.

## BRITISH GUIANA.

### GOODS ENTITLED TO PREFERENCE.

All articles entitled to preference under these regulations, imported or brought into British Guiana, shall be accompanied by such evidence of origin as hereinafter required, and all such articles imported or brought into British Guiana not accompanied by such evidence shall be deemed to be articles not entitled to admission at preferential rates of duty.

All articles entitled to preference shall be accompanied by a certificate of origin.

Certificates of origin in order to be valid must be attested to in British countries before a collector or other principal officer of customs, notary public or other official authorized to administer oaths; and in other countries before a British or other consul, notary public, or other official authorized to administer oaths, and they must bear the autograph signature of the authority issuing the same, together with the seal of office (if any). No certificate shall be valid after the expiry of six months from the date of its issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach British Guiana before the arrival of the certificates of origin relating to the same it shall be competent for the Customs authorities to authorize the delivery of such articles at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates, or on bond being given for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to the extent of such transactions.

When goods accompanied by certificates of origin are not in uniformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preferential treatment unless the Customs authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

Goods certified for entry under the preferential tariff shall be packed separately from other goods. The packages, however, may be inclosed with other goods, provided the certificate of origin is endorsed accordingly.

In order to obtain admission at the preferential rates of duty, goods shall be imported into British Guiana direct from Canada or the United Kingdom, respectively, provided that the source of Canadian goods is not to be deemed to be affected by passing through the United States under Customs supervision for purposes of consignment or reconsignment to British Guiana, but goods so consigned or reconsigned shall be imported into the colony in the original packages in which they were exported from Canada, and they must not have been altered in nature, quality or value during the time they remain in the United States.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

In accordance with the regulations which came into force on January 1, 1915, it is required that certificates of origin for Canadian preferential goods must originate in Canada, and no proof of origin made out in the United States will be recognized by the Customs Authorities of the colony, neither will Canadian goods reconsigned from the United States to British Guiana be entitled to entry at the British Preferential Tariff Rate.

In order to substantiate the correctness of the particulars contained in such certificate of origin the importer shall produce, at the request of the Customs authorities, the railway bill of lading, or a copy thereof duly certified by the Canadian Customs authorities, furnisher's account, business correspondence or such other documentary evidence relating to the goods as the Comptroller of Customs may, from time to time, require to be presented.

NOTE.—For sample Schedule of Certificate of Origin, see under British West Indies.

## BRITISH WEST INDIES.

Under the Canada-West Indies Reciprocity Agreement no attestation by a notary public or any other person is required for goods which are shipped direct from Canada. The declaration of the exporter alone is sufficient to entitle goods sent in this way to the preferential terms of duty mentioned in the Agreement.

The attention of the Department has been drawn to the fact that a number of Canadian merchants are forwarding to the West Indies certificates of origin covering preferential goods which do not bear the marks, numbers, particulars of goods, values, or other necessary information as to the shipments which they cover. This practice causes considerable inconvenience to the West Indian Customs authorities, and moreover the way in which the forms, which are being so largely used, are drawn up, set a premium on fraud, for it is possible for an unscrupulous importer to attach them to any invoice he desires with consequent injury to the trade of the countries concerned. It is to be hoped, therefore, that exporters will in future pay greater attention to these regulations in order to facilitate the work of the West Indian Customs officers.

### FORMS OF CERTIFICATES.

There are given herewith two forms of the certificates of origin required for entry under the Canada-West Indies Preferential Tariff of (1) articles consigned direct from the country of origin or manufacture; (2) those not consigned direct. These forms are, therefore, required by the Customs authorities of British Guiana, Antigua, Barbados, Dominica, Grenada, Montserrat, St. Kitts, St. Lucia, St. Vincent, and Trinidad.

## REQUIREMENTS OF VARIOUS COLONIES.

Besides the above general forms of Certificates of Origin required for entry under the Canada-West Indies Agreement, certain of the West Indian colonies have other regulations as to invoices designed to meet the needs of their individual cases. These requirements, therefore, in so far as they are available to the Department, are given herewith, together with those for other colonies not included in the Agreement. Although this information is not as complete as might be desired it is nevertheless hoped that it will be of some assistance to Canadian exporters in their trade with the West Indies.

## ANTIGUA.

For the forms required by the Customs authorities for certificates of origin see under British West Indies.

## BAHAMAS.

The only document necessary so far as the Customs are concerned is the ordinary invoice, certified by a member or responsible employee of the firm shipping the goods.

## BARBADOS.

For Certificates of Origin see under British West Indies.

## DOMINICA.

Manufactured articles shall only be admitted at the preferential rates of duty upon proof being submitted that a substantial portion of the labour of the United Kingdom, Canada, Newfoundland or any other British possession or protectorate to which preferential treatment has been extended has entered into the production of such articles to the extent in each article of not less than one-fourth of the value thereof at the time the goods are entered for exportation with the Customs authorities in the country of produce or manufacture.

All articles entitled to preference under these regulations, imported or brought into Dominica shall be accompanied by such evidence of origin as hereinafter required,

and all such articles imported or brought into Dominica not accompanied by such evidence shall be deemed to be articles not entitled to admission at preferential rates of duty.

All articles entitled to preference shall be accompanied by a certificate of origin in the form set forth under British West Indies.

Certificates of origin in order to be valid must be attested to in British countries before a collector or other principal officer of Customs, or a justice of the peace, and in other countries before a British or other consul, notary public or other official authorized to administer oaths, and they must bear the autograph signature of the authority issuing the same, together with the seal of office, if any. No certificate shall be valid after the expiry of six months from the date of its issue.

Inasmuch as it is possible that articles entitled to preference may occasionally reach Dominica before the arrival of the certificates of origin relating to the same, it shall be competent for the Customs authorities to authorize the delivery of such articles at the preferential rates of duty on the security of the deposit equal in amount to the difference in duty between the preferential and general rates or on bond being given for such amount for the due production of the necessary certificates within a prescribed period, provided that a general bond may be entered into to cover a series of transactions, and in a penalty suitable to the extent of such transactions.

When goods accompanied by certificates of origin are not in conformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preferential treatment unless the Customs authorities at the port of destination are satisfied as to the origin of the goods, and that the differences are solely due to error.

Goods certified for entry under the preferential tariff shall be packed separately from other goods. The packages, however, may be inclosed with other goods, provided the certificate of origin is endorsed accordingly.

In order to obtain admission at the preferential rates of duty goods shall be imported into Dominica direct from Canada, Newfoundland, the United Kingdom or any other British possession or protectorate, respectively, provided that the source of Canadian goods is not to be deemed to be affected by passing through the United States under Customs supervision for purposes of consignment or reconsignment to Dominica, but goods so consigned or reconsigned shall be imported into the Presidency in the original packages in which they were exported from Canada, and they must not have been altered in nature, quality, or value during the time they remain in the United States.

Goods entitled to preferential treatment shall not be entered on entries along with non-preferred goods.

#### GRENADA.

For Certificates of Origin see under British West Indies.

Certificates of Origin for goods not consigned direct in order to be valid must be attested to in British countries before a collector or other principal officer of Customs, notary public or other official authorized to administer oaths, and in other countries before a British consul, and such attested certificates must bear the autograph signature of the authority issuing the same, together with the seal of office, if any.

No Certificate of Origin shall be valid after the expiration of six months from the date of its issue.

Inasmuch as it is possible that goods as aforesaid may occasionally reach this colony before the arrival of the Certificates of Origin relating to the same, it shall be competent for the Customs authority to authorize the delivery of such goods at the preferential rates of duty on the security of a deposit equal in amount to the difference in duty between the preferential and general rates. Deposits made under the provisions of this paragraph shall be carried to account under the appropriate head of revenue at the end of fifteen days after the expiration of the time allowed by the Customs authority for the production of the Certificate of Origin, which time shall be not less than one month nor more than six months from the date of the importation of the goods.

When goods as aforesaid accompanied by Certificates of Origin are not in uniformity with the descriptions borne on the certificates, by reason of discrepancies as regards the marks or numbers of the packages, or the kind, quantity or value of the goods, they shall not be entitled to preference unless the Customs authority at the port of destination is satisfied as to the origin of the goods, and that the differences are solely due to error.

Goods as aforesaid certified for entry as goods entitled to preference shall not be entitled to such preference unless they be packed separately from other goods. The packages, however, may be inclosed with other goods, provided the Certificate of Origin is endorsed accordingly.

Goods as aforesaid shall not be entitled to preference if they are set out in Customs Bills of Entry in which other goods are also set out.

NOTE.—For forms of Certificates of Origin see under British West Indies.

#### ST. VINCENT.

For forms of Certificates of Origin see under British West Indies.  
The Customs regulations are similar to those given for Dominica.

#### TRINIDAD.

For forms of Certificates of Origin see under British West Indies.

#### CHINA.

No definite Customs certificate are required in China.

In Hong Kong the same applies except in the case of sugar, when Certificates of Origin are required, although no definite form is provided.

Regulations under the Sugar Convention Ordinance provide:—

“(a) All sugar imported or brought into Hong Kong, except in transit, shall be accompanied by the following evidence of origin: A certificate indicating (a) the kind and quantity of sugar; (b) the kind, number and marks of the packages; and (c) the country of origin. With regard to sugar prepared in non-contracting states, the certificates must also indicate that such sugar derived from a factory which does not work sugar coming from a state to which a special duty or prohibition is applied.

“(b) The said certificate shall, when possible, be signed and issued by the fiscal authority having jurisdiction in the country of origin or of despatch, such fiscal authority being duly empowered for that purpose by his Government. When there is no such fiscal authority the said certificate may be issued by a British consular officer

## HOLLAND.

Generally speaking, no certificates or invoices are required for the import of goods into Holland. It is only necessary to produce ordinary invoices when, on examination of the merchandise, charged at a certain value, a doubt as to the exactness of the declaration arises.

In the import of sugar a Certificate of Origin is required, for without it the highest extraordinary duty has to be paid.

## JAPAN.

Japan has no special invoice form required by the Customs, but ordinary invoices are necessary and should be signed by the exporter.

A Certificate of Origin is necessary, but there is no special form for this purpose. The certificate should be made out by the Japanese consul at the place where the article is produced, manufactured, bought or shipped, and if there is no Japanese consul residing there, should be made out before the Customs, Government or public officials, or the Board of Trade of that place, and the certificate must contain the mark, number, quantity of the said article, and the name of the place where it was produced or manufactured.

## NEWFOUNDLAND.

### CUSTOMS INVOICE REGULATIONS.

Every invoice of goods imported into Newfoundland shall be certified in writing as correct by the person, firm or corporation selling or consigning the goods, and shall truly show the whole and actual value of the goods in the currency of the country whence the goods have been exported directly to Newfoundland, and the quality and description of such goods, and the marks and numbers on the packages, in such a manner as to indicate truly the quantities and values of the articles comprised in each exportation package, all of which packages shall be legibly marked and numbered on the outside, when of such a character as to enable such marks and numbers to be placed thereon. (Form 11.)

If invoices are made out at lower prices, for goods exported directly to Newfoundland, than the fair market value thereof when sold for home consumption at the time and place when and from which they were exported, there must be clearly shown in a special column, or in addition thereto, the fair market value of the goods described therein, as required by the Customs Act.

In the case of goods consigned to a person, firm or corporation, other than the actual owners of the goods resident in Newfoundland, and in the case of goods which have not been actually purchased by the consignee or importer in the ordinary mode of bargain and sale, or where purchased through an agent, there shall be annexed to the invoice of such goods a declaration to be made by the foreign owner or exporter of the goods in the form approved by the Governor in Council. (Form 6.)

### HINTS IN MARKING GOODS.

Goods in transit are frequently exposed to dampness, and it is suggested that stencil marking with a waterproof substance is preferable to the present method of marking with a brush, and that when old cases are used original markings should be entirely removed.

Tags on bundle goods should be strong and firmly fastened, while cases containing tools or small wares, in order to guard against pilfering, require to be securely bound. The shipper should not fail to mail bills of lading, giving full details of shipment, together with weight and measurements of each case or package. The same

applies with regard to invoices, which should be in triplicate, and mailed in ample time to arrive before the goods. The usual declaration is preferred on the back of invoice, and need only appear on one copy.

The charge for cases should appear as a separate item; otherwise they are subject to the same rate of duty as the contents.

Discounts should be deducted and the net amount advanced.

### FORM 6.

DECLARATION prescribed to be made by an owner, or exporter, not resident in this colony, of any goods shipped to Newfoundland on consignment, before the collector or the mayor or other chief municipal officer at the place in the United Kingdom, or other place in His Majesty's possessions abroad, from whence the goods are shipped, or before a notary public; and at any other place before any British consul, or if there is no British consul before a foreign consul, duly accredited by any established Government and resident in the country from whence the said goods are exported to Newfoundland.

cases, boxes and coverings of any kind, and all charges and expenses  
incident to placing the said goods in condition packed ready for ship-  
ment to Newfoundland; if prior to their shipment to Newfoundland  
the said goods or any of them have been sold to any person or firm  
or corporation in Newfoundland, that there is truly set forth in the  
said invoice the price or amount actually charged or intended to be  
charged to such person, or firm, or corporation, for the said goods as  
in condition packed ready for shipment at the place whence bona fide  
exported and consigned to the importer in Newfoundland (after  
deducting only such ocean freight, from place of shipment direct to  
Newfoundland, and Newfoundland import duties and charges as have  
been included in the price of the goods sold as aforesaid); if prior to  
their shipment to Newfoundland the said goods, or any of them,  
have not been sold to any person, or firm, or corporation in New-  
foundland; that the said invoice contains a just and faithful valua-  
tion of such goods at their fair market value when sold for home  
consumption in the principal markets of the country whence the  
same are exported directly to Newfoundland, and that such fair  
market value is the price at which the said goods are freely offered  
for sale in like quantity and conditions by me or my dealers therein  
to purchasers in said markets in the ordinary course of trade at the  
usual credit without any discount or deduction for cash, or on account  
of any drawback or bounty, or on account of any royalty actually  
payable thereon, or payable thereon when sold for home consumption,  
but not payable when exported, or on account of the exportation  
thereof, or any special consideration whatever; or that if the value for

## NEW ZEALAND.

### CUSTOMS REQUIREMENTS.

The New Zealand regulations require that in the case of all goods which, if of foreign origin would be liable to the preferential surtax, must be accompanied by a certificate as per following:—

## Schedule.

## No. 1.

Form of Certificate prescribed to be written or printed on invoices of all articles for entry under the Preferential Tariff of New Zealand, when made and signed by an individual exporter personally.

I, (*full name of exporter*), the exporter of the articles included in this invoice amounting to (*total value of invoice, in words at length*), and dated....., of goods supplied to (*name of purchaser*), do hereby declare that I have the means of knowing and do hereby certify as follows:—

1. That the said invoice is in all respects true and correct;
2. That every article mentioned in the said invoice has been either wholly or partially produced or manufactured in (*name of part of British dominions*), and is *bona fide* the produce or manufacture of that part of the British dominions;
3. As regards those articles only partially produced or manufactured in that part of the British dominions,—
  - (a) That the final process or processes of manufacture have been performed in that part of the British dominions;
  - (b) That the expenditure in material produced in the British dominions and (or) labour performed within such dominions (calculated subject to the qualification hereunder) in each and every article is not less than one-fourth of the *factory or works cost* of such article in its finished state;
4. That in the calculation of such proportion of produce or labour of the British dominions none of the following items have been included or considered: Manufacturer's profit, or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition; cost of outside packages or any cost of packing the goods thereinto; any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

## No. 2.

Form of Certificate to be written or printed on invoices of all articles for entry under the Preferential Tariff of New Zealand, when made and signed by a person other than an individual exporter.

I, (*full name of person signing certificate*), (partner, manager, chief clerk, or principal official, giving rank, as the case may be), of (*name and address of exporter or exporters*), the exporter(s) of the articles included in this invoice, amounting to (*total value of invoice, in words at length*), and dated....., of goods supplied to (*name of purchaser*), do hereby declare that I am duly authorized to make and sign this certificate on behalf of the said exporter(s).

I have the means of knowing and I do hereby certify as follows:—

1. That the said invoice is in all respects true and correct;
2. That every article mentioned in the said invoice has been either wholly or partially produced or manufactured in (*name of part of British dominions*), and is *bona fide* the produce or manufacture of that part of the British dominions;
3. As regards those articles only partially produced or manufactured in that part of the British dominions,—
  - (a) That the final process or processes of manufacture have been performed in that part of the British dominions;

(b) That the expenditure in material produced in the British dominions and (or) labour performed within such dominions (calculated subject to the qualification hereunder) in each and every article is not less than one-fourth of the *factory or works cost* of such article in its finished state;

4. That in the calculation of such proportion of produce or labour of the British dominions none of the following items have been included or considered: Manufacturer's profit, or the profit or remuneration of any trader, agent, broker, or other person dealing in the article in its manufactured finished condition; cost of outside packages or any cost of packing the goods thereinto; any cost of conveying, insuring, or shipping the goods subsequent to their manufacture.

#### MOTOR CARS.

In the case of motor cars a statement and certificate is required as follows:—

(a) That, in order to arrive at the correct basis of value for duty of the bodies and accessories of motor cars, the invoices for such cars shipped to New Zealand after the 30th September, 1911, shall be expected to show, in addition to the price to be paid for the complete car, a statement showing the price ordinarily charged for home consumption in the country whence exported of the chassis, tires, body, footboards, mudguards, lamps, and any other accessories when sold separately, also the usual and ordinary trade discount on such articles when sold for home consumption in the quantities appearing in the invoice.

(b) That a declaration in the following terms shall be made on the face of each invoice by the manufacturer or supplier, or by some person authorized on his behalf:—

I....., manufacturer or supplier of the goods described in this invoice, do hereby declare that the prices shown therein for the complete car and for the several parts as separately stated are, at the present time, not less than the prices charged to purchasers of similar cars and parts when sold for home consumption in similar quantities in this country.

#### DECLARATION AS TO VALUES.

The following declaration in support of invoice values (to be sealed or printed upon invoices) is required in the case of goods, the market value or trade discount on which has been challenged or disputed by the New Zealand Customs Department:—

I..... do hereby certify as follows:—

1. That I am (1)..... the exporter of the goods specified on this invoice or upon the invoice sealed hereto.
2. That the said invoice is in all respects correct and true, and that all charges are correctly and separately stated thereon.
3. That the said invoice exhibits the fair market value of the said goods when sold for home consumption in like quantity and condition in the principal markets of the country whence and at the time when exported directly to New Zealand, without any deduction (a) on account of bounty, or on account of any royalty actually payable thereon, or payable thereon when sold for home consumption, but not payable when exported; or (b) on account of any discount for export only or on account of any special discount or cash discount except where so clearly and separately specified, or on account of any special consideration whatsoever.

(1) Insert the word "partner," in nags r," "chief clerk," "principal," or "principal official," giving the name of the firm, as the case may be.

4. I also certify (a) that unless otherwise clearly stated all prices or discounts specified in the said invoice are allowed to all buyers of similar quantities alike, and that they are not specially cut prices or discounts, or discounts or prices allowed specially to agents or on account of a contract to take goods greater in quantity or value than those appearing upon the said invoice within a stated period; (b) that no arrangement or understanding affecting the purchase-price of the said goods has been or will be made or entered into between the said exporter and the purchaser, or by any one on behalf of either of them, either by way of special discounts, rebate, salary, compensation, or in any manner whatsoever other than as shown in the said invoice.

## NORWAY.

For the import of goods into Norway consular invoices, certificates of origin or special invoice forms are not required.

## SOUTH AFRICA.

### CUSTOMS REGULATIONS.

For all goods imported into South Africa invoices are required to show clearly in a prominent place the current value for home consumption in the open market for similar goods at the place of purchase bought in the ordinary manner from the manufacturer or supplier in normal quantities. Also that the cost of packages must be clearly shown on the invoices.

Invoices showing home consumption values are insisted on as from the 1st December, 1913, and ordinarily should show such values and the prices charged in adjacent columns, but in lieu thereof, it is agreed to accept the following declaration, to be made on the invoice.

"I declare that the values appearing on the body of this invoice represent at the date of the invoice the open market values of the goods if sold for home consumption in Canada, and that the discounts shown are the same as those granted on similar quantities sold for consumption in Canada.

"Signed....."

"If this cannot be correctly certified, please add foot of existing certificate:—

"Value for home consumption....."

"Discount for similar quantities for home consumption....."

"Signed....."

In this connection, where articles are made specially for the South African market without there being any similar goods sold for use in the country of origin, the following declaration may be accepted:—

"The goods specified under invoice No.....dated.....herein, in the name of Messrs.....are manufactured solely for the South African market, and there are no similar goods sold for use in the country of manufacture, and we hereby declare the values to be calculated at rates and discounts which would apply if the goods were sold for consumption in that country."

## GENERAL MERCHANDISE CERTIFICATE OF ORIGIN.

Form of certificate prescribed to obtain a rebate of Customs duties on goods and articles the growth, produce or manufacture of the United Kingdom or reciprocating British colonies, protectorates or possessions:—

I....., the supplier (manufacturer) of the articles included in this invoice have the means of knowing and do hereby certify that the said invoice from myself to .....and amounting to.....is true and correct, and that all the articles included in the said invoice are *bona fide* the growth, produce or manufacture of....., and that a substantial portion of the labour of that country has entered into the production of every manufactured article included in the said invoice to the extent in each article of not less than one-fourth of the value of every such article in its present condition ready for export to Natal.

Signed.....

Dated.....this.....day of....., 191..

When this certificate is signed by some person on behalf of a manufacturer or supplier such person must state that he is duly authorized so to do.

## CERTIFICATES FOR SUGAR.

Form of certificate prescribed to obtain admission of sugar from states not granting bounties without being subject to the special duty imposed under clause 37 of article 2 of the South African Customs Union Convention of 1906.

(1).....the manufacturer (or producer or supplier) of the sugar mentioned in this invoice, have the means of knowing, and do hereby certify that the said sugar is the produce or manufacture of (2)....., (3) and I hereby certify that said sugar was manufactured in a factory not utilizing sugar originating from a state liable to the special duty.

(Signed).....

Date.....

1. Full name.
2. Name of country in which the sugar was made or produced.
3. This further certificate is to be given when such sugar emanates from a factory established in a non-contracting state.

## UNITED KINGDOM.

The Department of Customs does not regulate, except in a few instances, the forms of the documents which may accompany goods on importation into the United Kingdom. Generally speaking it appears that the Customs authorities look to the importer, and not to the shipper, to fill up such documents as are required.

The labels accompanying certain classes of imported meat are devised by the foreign authorities concerned and approved by the Department of Customs.

Invoices, bills of lading, certificates of weights of certain low-duty goods, certificates of origin for sugar, &c., certificates of transhipment for rum from non-producing countries, and lists of commercial travellers' dutiable samples, are documents which may be required to be produced, but for which particular forms are not specified.

**CHINA.**

*It is difficult to classify the general importers in China according to the different goods they import. In most cases they deal in everything, from piece goods, cottons, provisions, flour, etc., to machinery of all kinds, railway and bridge iron and equipment. In the following list therefore the names and addresses of the leading importers and merchants in Shanghai are given in alphabetical order, and against each name a list of the goods in which the firm in question deals is shown. Certain of the firms named have branch houses in the outports, and in such cases, the fact has been mentioned, so that for all practical purposes the list can be applied to the whole of China.*

### SOUTH AFRICAN BUYING AGENTS.

The system is prevalent in South Africa, whereby purchases abroad, particularly restricted purchases, are made by agents in Great Britain or elsewhere and are confirmed by the home houses. It therefore follows that no list of South African importers can be considered complete unless it is accompanied by the names and addresses of the over-seas buying agents of the firms given. A list of the foreign buying agents of the principal South African firms has therefore been compiled and is given herewith for the information of Canadian exporters.
